the difficult airway course™
CRITICAL CARE

NEW Course!

Build mastery
• How to predict a difficult airway and prevent a failed airway
• When — and when NOT — to use medication
• Practical strategies for crisis team leadership

Practice
• Airway techniques with proven devices, including video laryngoscopy
• Tube exchange and extubation of the difficult airway
• Cricothyrotomy

Prepare for challenging acute inpatient scenarios
• Upper airway obstruction
• Massively obese patient requiring intubation
• Agitated hemodynamically unstable patient who self-extubates
• Bleeding traumatized airway
• Can’t intubate/can’t ventilate

Created by experts in acute airway management and critical care medicine.

About Us

Airway Management Education Center was founded by Ron M. Walls, MD, Michael F. Murphy, MD, and Robert C. Luten, MD in 1998. Since then, more than 24,000 physicians and advanced medical providers have taken The Difficult Airway Courses. Our faculty are renowned experts in airway management with an impressive portfolio of research and publications. They share an unparalleled passion for teaching, which translates to an extraordinary learning experience.
