The Definitive EMS Airway Course

- Learn the full range of Airway Management techniques—including use of extraglottic devices, medication-assisted intubation and cricothyrotomy.
- Work with expert faculty who know the unique challenges facing EMS providers. All of our faculty members are practicing medical providers who perform airway management regularly in their clinical practices.
- Use all of the airway devices in small group sessions.
- Practice decision making and airway techniques in Code Airway Stations.
- Face the most challenging patient scenarios in a no-risk environment. These include elevated ICP, pulmonary edema, cardiogenic shock, status asthmaticus, foreign body in the airway, direct airway trauma, multiple trauma with shock, and many more.
- Meet your continuing education requirements. This course is approved by CECBEMS, ASTNA and AAPA. See next page for full credit statements.
- Receive a copy of the definitive airway textbook, Manual of Emergency Airway Management by Ron Walls, MD and Michael Murphy, MD (an $84 value!)

Didactic and Hands-on training in crucial airway techniques:

- Prediction of the Difficult Airway
- Video laryngoscopy and other advanced imaging devices
- Medication-assisted intubation (including RSI and RSA)
- Pediatric airway management
- Endotracheal tube introducers (bougie)
- Surgical Cricothyrotomy: open and percutaneous techniques
- Extraglottic devices
- Digital and nasal intubation*
- Capnography*
- CPAP and BiPAP*
- Ventilator Management*

*Denotes additional lectures that may be presented depending on local protocols and policies, time availability and request.

National Course Director

Darren Braude, MD, EMT-P Medical Director

Dr. Braude, Professor of Emergency Medicine and Anesthesiology at the University of New Mexico School of Medicine, was appointed Medical Director of The Difficult Airway Course: EMS and all EMS programs offered by First Airway. He is Director of the EMS Fellowship Program and Coordinator of the EMS Medical Direction Consortium in the Department of Emergency Medicine at UNM. Dr. Braude spent 10 years as a Flight Physician and Air Medical Director. Currently he is Medical Director of three organizations: UNM EMS Academy, Rio Rancho Fire Rescue and the New Mexico State Police. In addition, he remains active in the field through the UNM EMS Physician Field Response Program and as a Tactical Physician for Rio Rancho SWAT and FBI Albuquerque SWAT. Dr. Braude is author of Rapid Sequence Intubation and Rapid Sequence Airway, 2nd Edition: an Airway911 Guide.

"On behalf of the faculty of The Difficult Airway Course: EMS, I would like to thank Michael Murphy, MD for his many years of course leadership and commitment to EMS education. As creator and Medical Director of The Difficult Airway Course: EMS, Dr. Murphy raised the bar for EMS education and airway management. We are grateful that he will continue to support..."

“The course allows medics to examine their own airway practices and procedures. Great opportunities to see new adjuncts and practice skills. The discussion groups were extremely important. Thanks for a great two days.”
Ken Hendricks, NREMT-P, Indiana

“The most valuable CEUs I’ve ever taken.”
Ben Dowdy, EMT-P, Kentucky
